Client

March 1, 2023

```
[1]: import sys
     sys.path.append('src/')
     sys.path.append('src/graphdb-client/')
     import swagger_client
     from recommender import ui, lib
     from IPython.display import display
```

Configuration Parameters

Set the configuration according to your GraphDB instance.

```
[2]: lib._repository_id = "TravelRegion"
     lib._host_url = "http://localhost:7200"
```

```
[3]: display(ui.dashboard)
```

```
VBox(children=(HTML(value='<b>Travel Region Recommender</b>'),␣
 ↪Box(children=(Label(value='Input your constrain…
```
